TESTIMONIALS

"Thanks to RISSafety for the height safety inspection and work completed at our Woolworths Store. The level of professionalism and communication was fantastic and it will help ensure the ongoing safety of our staff"

- Store Manager, Woolworths.

"RIS have done a wonderful job... I would recommend RIS for any future compliance upgrade works"

- Devonport City Council.

INDUSTRY-LEADING EXPERTISE

Our team of highly skilled safety professionals brings together decades of experience and a deep understanding of access and height safety at workplaces.

COMPLETELY DIGITAL SOLUTION

We use a world class completely digital solution across all our inspections that streamlines all our processes to produce consistent documentation that meets the stringent requirements of our ISO accreditation.

COMPREHENSIVE REPORTING

We provide detailed reports that clearly state the current compliance of your height safety systems, details of any non-compliances, together with recommended actions to ensure your systems remain compliant and safe.

REGULATORY COMPLIANCE

Our inspections ensure that your systems are in full compliance with all applicable Australian Standards and Workplace Health and Safety regulations.

SIGNS YOU ARE DUE FOR A HEIGHT SAFETY INSPECTION

Height safety inspection and certification is required at either 6 or 12 months depending on the type of materials used in the systems. If the systems are exposed to harsh environments, or where corrosion may be an issue, more frequent recertification inspections are advised.

The Australian Standard states that the maximum life of Personal Protective Equipment (PPE) such as harnesses, lanyards, and ropes is 10 years from the date of manufacture, providing that all harness components remain in a serviceable condition during that time, and providing it passes every bi-annual inspection.

Inspections by qualified height safety experts will ensure your organisation's systems and procedures meet the exacting requirements of Australian & New Zealand Standards and legislation.

READY FOR A SAFETY COMPLIANCE INSPECTION?

Contact us today to book a height safety inspection or to learn more about our safety solutions. We look forward to helping you create a safer workplace.
